Design review report

Villa Complex 415V LV Network

1. Document control

Item	Value
Project	Villa Complex 415V LV Network
Report	Design review report
Document no.	Not recorded
Purpose	Not recorded
Date	15 October 2026
Owner	Mr. Ahmed Al Mansoori
Consultant	ABC Engineering Consultants
Contractor	Not recorded
Prepared by	Not recorded
Checked by	Not recorded
Baseline	No revision issued
Reviewed state	Working design

2. Executive assessment

0 review comments: 0 unresolved (0 critical, 0 major), 0 awaiting evidence, 0 closed but to be re-reviewed because the design changed.

Calculation results are out of date for: Short circuit. They are not included as current.

- F-02 voltage drop FAIL

No critical matter is unresolved.

3. Documents reviewed

No drawing set has been created. Specifications and datasheets are not recorded in the project.

4. Design basis

Item	Value
Supply	415 V, 50 Hz

Item	Value
Voltage-drop limit	4 %
Ambient	45 °C
Panels	5
Circuits	36
Authority	Not recorded

Operating scenarios and exclusions are not recorded in the project.

5. Modification summary

No modification records.

No baseline revision: the working design is not compared.

6. Review-comment register

No review comments have been recorded.

7. Drawing and schedule consistency

- 0 drawing sheets.
- No schedule or drawing regeneration is flagged by the changes.
- No design quantity changes against the baseline.

8. Single line diagrams

No drawing set has been created, so there are no diagrams to attach.

In the PDF (desktop app) these sheets follow the report as full drawing sheets with their title blocks, drawn from the current design. The Word file lists them only.

9. Conclusion and limitations

No reviewer decision has been recorded. This report makes no statement of approval.

Names are typed text; the application does not verify identity. Calculation outputs are the application's and must be checked by a qualified engineer. Appendices (detailed calculations, diagrams) are issued separately from the study reports.

Generated by LV Design Studio from a frozen copy of the project on 15 Oct 2026.
